In conjunction with *House & Garden's* April 2000 Color Issue, *House & Garden* unveiled its Color Showhouse consisting of 31 sumptuous and elegant rooms—classical to contemporary. The Showhouse attracted over 20 leading decorators from the US and abroad who joined forces to artfully color the spectrum with rooms ranging from mellow yellow, and shocking yellow to sky blue. For a virtual tour of the *House & Garden* Color Showhouse check out www.houseandgarden.com through August 2000.
